Joshua,
Dear Dr. ~~Lederberg~~:

I want to express my gratitude to you for cooperating so fully while we were preparing the forthcoming article on biologists.

I hope it will give you no reason to regret the time you spent with Miss Fullen and me, and with our photographer. The article will appear in the June issue and we shall, of course, see that you receive a copy.

Sincerely yours,

Frank

Your detailed comments on the MS were most helpful - You are an excellent editor. I took most of your suggestions.
